[Firstname Lastname]

Junior Frontend Developer · React, TypeScript

[Kyiv], Ukraine · Remote or office · [email@example.com] · [+380 XX XXX XX XX] · [linkedin.com/in/your-name] · [github.com/your-name]

SUMMARY

Junior frontend developer with [8 months] of commercial experience building [admin panels and landing pages] in React and TypeScript. I care about clean components, accessible markup and tests that catch real bugs. Looking for a [product team] where I can grow into a middle role within [a year or two].

EXPERIENCE

Junior Frontend Developer · [Company Name]

[Mar 2025] - Present · [Kyiv] · [Hybrid]

[One line about the product: what it is and who uses it.]

- Built [12] screens of the [customer dashboard] in React and TypeScript from Figma designs, reviewed by a senior developer.
- Moved form validation to [React Hook Form and Zod], which removed [a class of] duplicate bugs reported by QA.
- Wrote unit tests with [Vitest and Testing Library] for [shared components], coverage of the module went from [20%] to [65%].
- Fixed [30+] bugs from the backlog, including [layout issues in Safari] and [keyboard navigation in modals].

Frontend Developer (freelance / internship) · [Client or Company]

[Jun 2024] - [Feb 2025] · Remote

- Built a [landing page] for [a local business] in [Next.js], page loads in under [2 s] on mobile.
- [Second concrete task and what changed.]
